

Technology Supplies List Information

Students need specific school supplies each year and technology supplies are an important part of these supplies to ensure a student has a successful school day/year. Students who purchased technology supplies from the school in the past should be bringing these supplies with them each day. If your student no longer has the supplies sold in the past, for your convenience, we have created a [Required Tech Supplies webpage](#) with a list of approved tech supplies with links to purchase on Amazon. You can purchase the required supplies through the links.

The Tech Supply website contains both required and recommended supplies needed by students and grade levels. Other requirements are also listed on the website. Every student is expected to have these supplies on hand for every class which includes hearing devices with microphones for every grade and a mouse in grades 2 to 8.

These include:

1. Every student needs to keep their supplies at hand in a ZIPLOCK bag OR one of the recommended cases with their name and class clearly marked on the BAG or recommended supplies case.
2. Students are expected to bring these supplies to each class.
3. The school provides one Chromebook case per student. If the case breaks or is lost, parents MUST purchase the approved case listed on the website.
4. The school provides one tablet case per student. If the case breaks or is lost, parents MUST email it@srsnj.org for a link to the correct case for their students' tablet model.
5. The school provides one Chromebook or Tablet charger per student device. If the charger is lost, parents MUST purchase the approved charger listed on the website.
